SecureNet Key Registration

Access to GFDL's computational facility from outside networks is controlled by a challenge/response identification system. The SecureNet Key is a small, pocket calculator-like device that will be issued to you so you may identify yourself to the system. Your SecureNet Key will be personalized for you; it must not be used by anyone else.

Name _____

Affiliation _____

Office Address _____

Login ID_____ **Bin No.** _____ **GFDL Project (group)** _____

From what locations do you intend to access the GFDL network and how often?

_____

_____

_____

I hereby certify that I have read, understand, and will abide by the GFDL Computer Use Policy (copy attached) when using the GFDL Scientific Computing Facility.
I will not allow anyone else to use my SecureNet Key nor will divulge my Personal Identification Number (PIN) to anyone. I understand that the SecureNet Key is the property of the U.S. Government and I will return it upon termination of my association with GFDL.

Signature _____ **Date**_____
